Other areas:

E-learning for healthcare – e-ELCA end of life care for all

There are over 150 highly interactive e-learning sessions with e-ELCA. These are arranged in five core modules:

- Advance care planning
- Assessment
- Communication skills
- Symptom management
- Comfort and wellbeing

As well as three additional modules (social care, bereavement and spirituality) and one integrating learning module which helps to consolidate and apply understanding in different situations.
